## Egg-free Diets

If you feel frustrated and helpless due to food allergies, you are not alone. Up to 60\% of Americans have shown signs of food allergy at one time or another. About $10 \%$ of food allergy sufferers exhibit symptoms serious enough to see a doctor. Food allergy typically does not appear overnight. In susceptible people, allergies to foods eaten regularly (if not daily) progress over time. Because allergy onset is subtle, identifying offending foods can be difficult and often requires trial diets. Once the food has been identified, the patient may incorporate acceptable substitute in his or her diet and avoid the food completely.

Nearly any type of food can cause allergy, but cow's milk, eggs, fish, shellfish, nuts, corn, cereal grains, chocolate, citrus fruits, peanuts and soy products most commonly provoke reactions. Because many foods come from related plant and animal species, which contain cross-reacting substances, a person may suffer an allergic reaction from a food he has never eaten. The web site www.dpcAlaSTAT provides information on specific allergens, peak pollination seasons, and allergy cross-reactivity.

The following diet excludes all egg and egg products, including egg powder, dried egg or albumin. To eliminate egg completely, you must read all labels before purchasing commercially prepared food.
$\left.\begin{array}{|l|l|l|}\hline \text { Types and Amounts of Food } & \text { Include } & \text { Omit } \\ \hline \begin{array}{l}\text { Soups } \\ \text { As desired }\end{array} & \begin{array}{l}\text { Broth or cream soups } \\ \text { prepared with allowed } \\ \text { ingredients }\end{array} & \begin{array}{l}\text { Mock turtle and egg noodle } \\ \text { soup, any stock soup cleared } \\ \text { with egg i.e. consommé, } \\ \text { bouillon, etc. }\end{array} \\ \hline \begin{array}{l}\text { Meat and Meat substitutes } \\ \text { 2-3 Servings } \\ \text { (5 oz total) }\end{array} & \begin{array}{l}\text { Meat, poultry, cheese, fish, } \\ \text { seafood prepared without } \\ \text { eggs } \\ \text { Meats breaded with egg-free } \\ \text { breading }\end{array} & \begin{array}{l}\text { Any meat prepared using egg } \\ \text { as a binding agent, such as } \\ \text { sausage, hamburger, } \\ \text { meatloaf, croquettes, or } \\ \text { casseroles }\end{array} \\ & & \begin{array}{l}\text { Breaded foods in which egg is } \\ \text { used in the breading }\end{array} \\ & \begin{array}{l}\text { Meat and fish sauces } \\ \text { containing egg batter for deep } \\ \text { fat frying }\end{array} \\ \hline \text { Eggs } & \text { None } & \begin{array}{l}\text { Cheese soufflé, cheese } \\ \text { fondue, Cheese puffs }\end{array} \\ \hline \text { Eggs in any form, e.g., } \\ \text { poached, scrambled, baked, } \\ \text { creamed, fried, deviled, hard } \\ \text { or soft-boiled, omelet, } \\ \text { soufflés, egg salad, egg } \\ \text { sandwich, egg sauces, } \\ \text { meringues }\end{array}\right\}$

| Cereals 1 or more servings ( $1 / 2-3 / 4$ cup each) | All | None |
| :---: | :---: | :---: |
| Vegetables 2 or more servings ( $1 / 4$ cup each) | All fresh, frozen, dried, or canned (included 1 serving of dark-green or deep yellow Vegetable daily as a vitamin A source) | Vegetables combined with egg sauces, such as hollandaise, corn custard, spinach, soufflé |
| Bread 3 or more servings | Plain enriched white, rye, whole wheat bread, Ry-Krisp $\circledR$, hamburger and wiener buns, biscuits made from egg-free baking powder (some contain egg white or albumin-read the label) <br> Any homemade breads made from egg free recipes (many commercial breads and rolls contain eggs, dried eggs, or egg Powders or are brushed with egg whites to glaze the top) <br> Plain crackers | Commercially prepared muffins, pancakes, French toast, popovers, Doughnuts, waffles <br> Prepared mixes for pancakes, muffins, waffles, etc. |
